

Recent Teacher Feedback about EBLI Training:

I want to tell you that you have created an amazing course here. It is so comprehensive and very professionally done. This is one of the best courses I have taken, and that includes college courses. With all of the instructional videos and the extensive handbook, it is impossible not to understand the content. Thank you so much for a course that actually teaches me something, rather than wastes my time with a bunch of theory without practical application. The information in this course is something I will actually use!! *Michelle EBLI 2nd-8th Remediation Trainee*

EBLI was the best thing that ever happened to me. My kids made huge growth, and retained it. It really follows the science of reading and you can apply it to things you already teach.

Amber Schafer, K-3 Classroom ETSL: EBLI Teacher Training and Student Lessons Trainee

I can't recommend EBLI enough. The training I received was phenomenal & the support I've received since is like no other. Everything I learned I was able to use in my classroom immediately. My only regret was that I didn't get the training earlier in my career. You, your staff & your students will not be disappointed.

Courtney Greenfield, 1st grade EBLI teacher

I used EBLI in my classroom and saw fast and phenomenal growth with my students. I've also been using it to teach my 4 year old and she is already able to read a simple book. One of my favorite aspects of EBLI is that it shows you how to apply and integrate it into your classroom and there is ongoing support once the training has finished!

Katie Curtis, 3rd grade EBLI teacher

I have used EBLI in my resource room working with students from K-8th grades. The very first year, I was able to graduate three of my students out of the resource program and they no longer need additional support. The strategies can be implemented into any classroom and used with all students.

Jeanne Brommelje, Special Education EBLI teacher

EBLI is amazing! It seems so simple, but has great results!

Julie Price, Remediation EBLI teacher

I just started my online training with EBLI. I am Wilson certified and wanted to see if I could ramp up “speech to print” instruction as well as address accurate spelling from the get go. I am getting what I was after! It is an excellent curriculum and I would also say it is a curriculum or training that will keep students engaged-even remotely! I am able to use these EBLI strategies, in my private tutoring as well as small group work, as a Title 1 reading specialist. I am learning via the online modules and then immediately applying what I am learning to my practice. Most Excellent and Efficient!

EBLI was a game changer for me. I knew my kindlers had gaps in their knowledge (thanks, balanced literacy curriculum!) but I never realized how many gaps they had until I was trained in EBLI. There were concepts my kids never understood but I deemed it as “developmentally inappropriate”. With EBLI, my kids were doing in October what they could NEVER do in June in previous years. Not only does it cover phonics, it teaches writing, vocabulary, phonemic awareness, morphology- so many things that are on Scarborough’s Rope. I’m jealous if your admin is having you look into EBLI- I had to pay for it out of my own pocket. My first principal always said that kids rise to our lowest expectations. EBLI sets the bar high- and ALL my kids could reach it because EBLI uses evidence backed by research. When school ended in March because of covid, note than half my kids had already passed end of year kindergarten goals.

I have taught for 20 years and I wish that I had known then what I'm learning now!"

Where was EBLI when we were getting our teaching degrees?

4th Grade Teacher, Michigan

I like that EBLI does not expect or encourage students to write extensively before they've actually learned the process.

Reading Specialist, Pennsylvania

I'm eager to ditch the rules and try the new EBLI strategies!

8th Grade Teacher, Michigan

I was excited to see how many students were willing to read in front of each other as they are becoming more comfortable with attacking multi-syllable words.

4th Grade Teacher, New York

EBLI has given me a new insight on how to teach reading not just in isolation but integrating in into all academic areas!

3rd Grade Teacher, Michigan

I have fallen in love with EBLI; not only has it changed the way I am teaching at school but also with my daughter at home.

Special Education Teacher, Michigan

I really love the pace and positive attitude that Nora presents as she teaches.

Quotes from EBLI K/1st training evaluations:

- Outstanding! Revolutionary! So Powerful!

- EBLI is for all students no matter where they are.
- It is crazy how much I have learned in a few days. I am re-thinking a lot of things I have taught and have been taught.
- The delivery, the practice and the video examples were fabulous! This was an amazing training.
- I've always thought inventive spelling/guessing should not be happening. GREAT program!
